

RESULTS and IMPACT of CIVIC MONITORING

Who, what, where and how is been monitored

- OCTOBER 2020 -

WHAT IS MONITHON

Monithon is an independently developed initiative aiming at promoting the civic monitoring of public funding. Currently, our main source of data are the Italian "OpenCoesione" and the European "CohesionData" open data portals, which we use as the starting point of our investigations. Our main target are EU-funded projects in Italy and elsewhere in Europe

COSA FA MONITHON

Since 2013, Monithon has been developing tools and methods for enabling the "civic monitoring" of public funding. Our "civic monitoring reports" include information on how the projects are developed, how they are progressing, and what is their impact from the point of view of the final beneficiaries, such as citizens and enterprises.

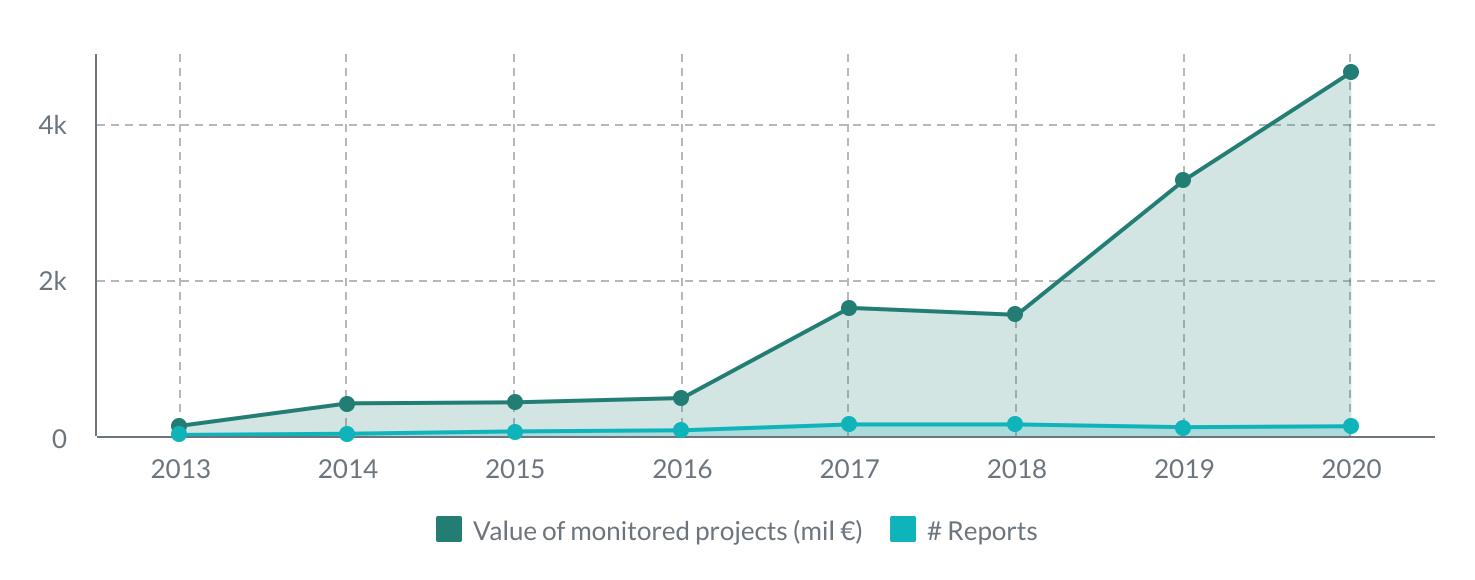

We engage students, NGOs and individual citizens.

OPEN COESIONE Givic monithon reports are based on the data on individual projects retrieved from the portal www.OpenCoesione.gov.it

Open Government Data are the starting point of our investigations. HOW PUBLIC MONEY IS SPENT?

Civic monitoring reports

709 reports were approved and published by the Monithon staff. Financial value of monitored projects is growing

Who are the monithoners?

652

Reports were created by thousands of high school students involved in the project "At the School of OpenCohesion", now active in several EU Member States

27

Reports were created by individual citizens, higher education students or the Monithon staff

30

Reports were developed by NGOs and local communities thanks to the support of Monithon's staff

What is being monitored?

9.41 billions

of public funding monitored from 2013 to 2019

EUROPEAN FUNDS 65% (ERDF, ESF)

NATIONAL FUNDS (FSC, PAC)
